

Table OF DOCUMENTS

Chapter 3: Management of water resources

Figure 1	Yields and water requirements of irrigated and rainfed agriculture	72
Figure 2	Constraints in rainfed agriculture areas	73
Figure 3	The FAO approach to the Water-Energy-Food Nexus	76
Figure 4	Spatial pattern of the mean annual and seasonal temperature difference (°C) between 2050 and 2000	81
Figure 5	Conservation agriculture practices applied at ACLIMAS demonstration field in Bekaa Valley (Lebanon) (left) and demonstration field in CIHEAM-Bari (Italy) (right)	83
Table 1	Key co-ordination gaps in water policy and possible responses	84

Chapter 4: Sustainable development of land resources

Figure 1	Soil functions and services	98
Figure 2	GSP composition and governance	99
Figure 3	Land acquisitions globally	101
Figure 4	Potential areas for out-scaling SLM practices in three dominant agro-ecosystems of the MENA region	105

Chapter 5: Forests: facing the challenges of global change

Figure 1	Distribution of Mediterranean forests	114
Table 1	Evolution of forest cover in the Mediterranean (1990-2010)	118
Figure 2	Urban population distribution and increase in Mediterranean countries (2011)	121
Figure 3	Estimated expansion of European Mediterranean forests since 1900	122
Figure 4	Changes in forest area in Southern and Eastern Mediterranean countries	123
Table 2	Extension of planted Forests	124
Figure 5	Non-wood forest products removals in the Mediterranean countries (2010)	126

Chapter 6: Plant and animal resources diversity

Table 1	Wild plant and animal species in the Mediterranean basin	140
Table 2	Number of local and transboundary livestock breeds in the Mediterranean area	140
Figure 1	Conservation status of Mediterranean wild animals assessed for the IUCN Red List of Threatened species	141
Figure 2	Breed status of the main livestock species (cattle, sheep, chickens, goats and pigs) according to regions	142
Figure 3	State of capacities reported in different area of animal genetic resources management	146
Table 3	Major international and regional conventions, treaties and protocols related to biodiversity governance, and their ratification by the Mediterranean countries	147
Figure 4	Extent to which the management of animal genetic resources, in the Mediterranean sub-regions, is reported to be integrated with the management of plant, forestry and aquatic genetic resources	148

Chapter 7: Energy and agri-food systems: production and consumption

Table 1	Examples of energy efficiency improvements in the agri-food sector through direct or indirect interventions	158
Figure 1	Energy intensity according to arable land (GJ/ha)	160
Figure 2	Energy intensity according to the monetary value of agricultural production (MJ/\$)	161
Figure 3	Energy intensity according to food supply (MJ/kcal)	161
Table 2	Wind power capacity and number of wind farms by country (2010)	162
Table 3	Prices of various energy sources in Crete (2015)	167

Chapter 9: Food losses and waste: global overview from a Mediterranean perspective

Table 1	Magnitudes of FLW in selected crops in the Near East and North Africa (NENA) countries	211
Table 2	Weight percentages of FLW (in % of what enters each step of the food supply chain) in Europe, in North Africa, in Western and Central Asia and in Turkey	214
Table 3	Estimates of total food waste generation by Mediterranean EU member states	219
Table 4	Level of household food waste (% of responses)	220
Table 5	Estimated quantity of purchased food thrown away	221
Table 6	Value of food waste generated per month (in USD)	221
Table 7	Key features of cold chain development, Morocco	231

Chapter 10: The Mediterranean diet: a sustainable consumption pattern

Figure 1	The Med Diet 4.0 Model	254
----------	------------------------	------------

Chapter 11: Innovative postharvest technologies for sustainable value chain

Figure 1	Main categories for causes of postharvest losses (in %)	267
Table 1	Approaches to the FLW reduction	268

Chapter 12: Innovation for the reduction of food losses and waste

Figure 1	A food-use-not-waste hierarchy of actions to minimise FLW along the food chain	285
Table 1	Drivers of food waste generation, increase and reduction related to the institutional and policy context category	288

Chapter 17: Enhancing knowledge for food security

Table 1	Agricultural R&D indicators in public institutions for selected Mediterranean countries in 2012	368
Table 2	Main research needs related to food security in the Mediterranean area	373
Table 3	National Extension Services (NES): some indicators	383
