

CIHEAM YOUTH INNOVATION AWARD FOR GREEN AND BLUE TRANSITION IN THE MEDITERRANEAN FOOD SYSTEMS

Opening and closing of the call: 20 MAY / 15 AUGUST 2024

in collaboration with UFM, UNIMED and BUSINESSMED

The 2024 edition "CIHEAM Youth Innovation Award" is launched with the support of partners who share common objectives and vision for the Mediterranean, namely, the Union for the Mediterranean (UfM), the Mediterranean Universities Union (UNIMED) and the Union of Mediterranean Confederations of Enterprises (BusinessMed). The Award ceremony will take place in a CIHEAM special session of the [Ecomondo exhibition](#), one of the most important fairs in the world dedicated to green and circular economy hosted in Rimini, Italy, on November 5-8, 2024.

Why a Youth Innovation Award for Green and Blue Transition in the Mediterranean?

Climate change and its impact on natural resources are increasingly showing their effects at the global and at the Mediterranean level in particular. Sustainable food system in a context of climate change and scarcity of natural resources represents a major challenge for countries in the Mediterranean region where the various socio-economic and environmental concerns are even of paramount importance. A shift towards sustainable food system patterns can help reduce greenhouse gas emissions, increase energy efficiency and renewable sources, reduce and valorize waste and by-products. It can help avoid the loss of biodiversity, conserve ecosystems and rural and coastal landscape while promoting equitable growth and more inclusion. Today the green, blue, circular and solidarity economy allows the emergence of innovative techniques, financing and services to respond to these challenges. **Young people play an essential role in this dynamic. Their visions and solutions need to be better known and supported and must become a source of inspiration for as many people as possible.**

Eligibility and selection criteria

The "CIHEAM Youth Innovation Award for Green and Blue Transition in the Mediterranean" will reward an innovative solution (scientific or entrepreneurship product/service, at least in a pilot phase), contributing to the green and blue transition of SFS Med, and in the same time to improve human well-being and social equity while reducing environmental risks and ecological scarcities, contributing to zero climate impact. To strengthen the dynamics already at work, the Mediterranean countries eligible for the 2024 CIHEAM Innovation Award are those with which the Center has ongoing collaborations in the areas of research, student and staff exchanges, cooperation or network activities.

CIHEAM YOUTH INNOVATION AWARD FOR GREEN AND BLUE TRANSITION IN THE MEDITERRANEAN FOOD SYSTEMS

Opening and closing of the call: 20 MAY / 15 AUGUST 2024

Eligibility criteria

- Applicants must be young Mediterranean, aged **not more than 39 years**
- Applications should propose an innovative solution (as an individual or on behalf of a team/startup), at least in a pilot phase to be **implemented in an area of the Mediterranean**

Selection criteria

The Award will reward an innovative entrepreneurial solution, able to generate technological, scientific, economic or social impacts (job placement) and to demonstrate:

- innovative and disruptive characteristics in comparison with existing ones;
- quantitative and qualitative innovative contribution to the environmental, social and economic sustainability of Mediterranean Food Systems;
- feasibility and measurable sustainability;
- scale-up potential, reproducibility, etc.;
- readiness of the innovation solution (RTL).

Application

Candidates can submit their application through [this form](#) available on CIHEAM Website.

The Award

The selected awardee will receive **a financial grant of 10.000 €**, a CIHEAM medal and a Certificate, to be delivered during a special technical session at the [ECOMONDO - The Green Technology Expo](#) which will take place from the 5 to 8 November 2024 in Rimini (Italy). ECOMONDO, the ecological transition ecosystem, is the place for industry, stakeholders, policy makers, opinion leaders and local authorities to meet and talk.

Other recognitions will also be awarded in the form of a **one-year scholarship for a master's degree in open innovation and youth entrepreneurship** at [CIHEAM Bari](#); and in the form of an **internship in one of the partner companies**.

The awardees will also be promoted on the various platforms of communication of CIHEAM, the UfM, BUSINESSMED and UNIMED, in particular on the occasion of the [Mediterranean Day](#) (November 28, 2024).

CIHEAM YOUTH INNOVATION AWARD FOR GREEN AND BLUE TRANSITION IN THE MEDITERRANEAN FOOD SYSTEMS

Opening and closing of the call: 20 MAY / 15 AUGUST 2024
